ICS – Computer Science

University of Central Punjab, Johar

Town, Lahore

2022 – 4th Semester (Cont....)

CGPA: 3.77 / 4.00

BS Software Engineering

PROFILE

Angular Developer with 1 year of experience, proficient in developing dynamic and responsive web applications.

Skilled in logic building, software design, and effective team management. My goal is to leverage my technical skills and collaborative approach to contribute to innovative projects, enhance user experience, willing to teach juniors and drive the success of the development team and the company.

EXPERIENCE

Junior Front-end Developer (Angular)

2023-Present

Developed and maintained dynamic, responsive, and visually appealing web applications using Angular. Created attractive and user-friendly interfaces while ensuring cross-browser compatibility and performance optimization. Collaborated closely with QA and Backend teams to integrate front-end components with server-side logic, conducted thorough testing, and debugged issues to deliver high-quality applications. Actively participated in meetings, requirement analysis, and discussions to gather insights, define project scope, and align development efforts with business objectives.

PORTFOLIO PROJECTS

- Profile Portfolio Website
- Odoo Clone with advance UI and features
